

REMARKS

The Examiner's careful review and examination of the subject application are noted and appreciated.

The present invention relates to a hybrid fuel cell comprising a fuel cell portion, and a rechargeable battery portion. The fuel cell portion and the rechargeable battery portion being adapted to operate alone or in tandem, and being adapted to share at least one reactant.

SUPPORT FOR AMENDMENTS TO THE SPECIFICATION

Support for amendments to the specification can be found in, for example, Figure 7 and page 36-37 of the specification as originally filed. As such, no new matter has been added.

The Examiner is respectfully invited to call the Applicants' representative should it be deemed beneficial to further advance prosecution of the application.

Respectfully submitted,

Frederick W. Mau II
